Call for Papers, Panel and Poster Proposals:

Gender and Education Standing Committee (GEC) at CIES 2014.

The Gender and Education Committee (GEC) will be organizing a number of highlighted sessions at the 2014 CIES Annual Meeting in Toronto, Canada. Highlighted sessions provide a platform for continuing, long-term research interests on issues related to the work of the GEC.

The evidence on global dynamics in gender is growing, and it is clear that processes such as economic restructuring, long-distance migration, and the development agendas in general have the power to reshape local patterns of masculinity, femininity and gender identity in general (Connell 2005; Morrell and Swart 2005).

Drawing on this the GEC invites proposals that address the annual meeting theme "Revisioning Education for All" and focus attention on theories and issues of gender, gender-sensitive programs, and LGBT issues along with papers that pay particular attention to the links between men and women, masculinity and femininity and on power relations in general.

Deadline for Proposal Submission: October 25, 2013
